

COTTON CARTAGE TRAILER

The C&M Cotton Cartage Trailer is a patented Australian design that transforms cotton transport by converting standard drop deck trailers to carry up to nine cotton modules.

This innovation increases load capacity by up to 50% and reduces load times, making it a more efficient solution for cotton cartage.

APPROVED COTTON CRUSH DESIGN

Product Code: CMCCT

FEATURES & BENEFITS

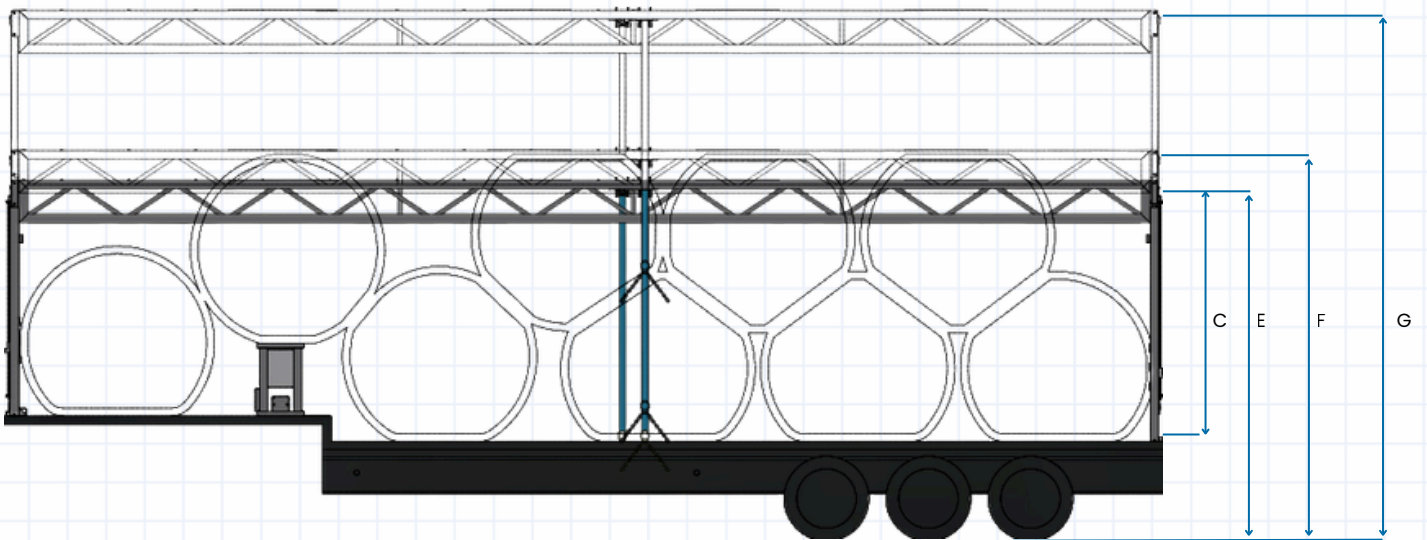

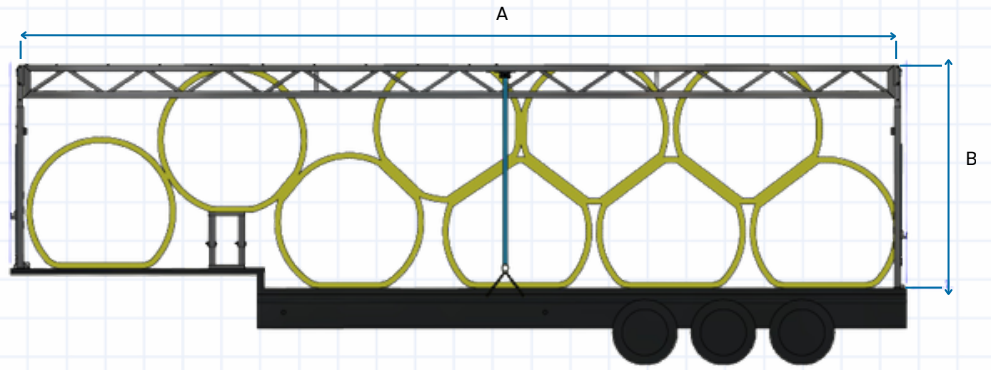

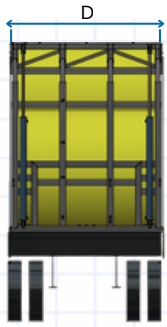

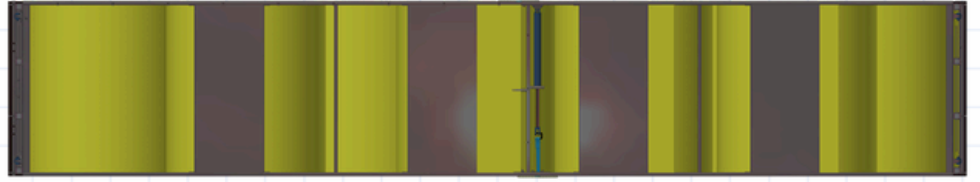

- Certified to carry 9 modules per trailer
- Improved productivity and efficiency
- Designed to be added onto existing trailers – fits most designs
- Load height under 4.5 meters
- Hydraulic power pack or truck hydraulics
- Simple bolt-on attachment
- Certified to comply with Load Restraint Guide NTC 2nd edition.
- Certificate available
