

COTTON ROW MULCHER

The innovative C&M Cotton Row Mulcher delivers increased cotton mulching productivity like no other.

Using a unique, patented design, this machine features 12 x single row mulching heads, enabling operators to mulch 12 rows in one pass – at higher speeds.

Make post-harvest cotton stubble mulching faster and more productive with this quality Australian-made and designed speciality implement.

FEATURES & BENEFITS

- 12 x single row mulching heads
- Designed for Category 3 and 4 quick-hitch
- Heavy-duty construction
- Adjustable ground clearance with hydraulic and / or manual controls
- Walking beam wheels
