

TRASH RACK

Keep your channels clear and pumps running efficiently with this innovative debris-filtering system.

The C&M Trash Rack removes grass, roly poly, cotton trash and stubble before it reaches your pump station. Featuring a rotating rack and front grate, it lifts debris out of the water and drops it onto a discharge conveyor for easy disposal.

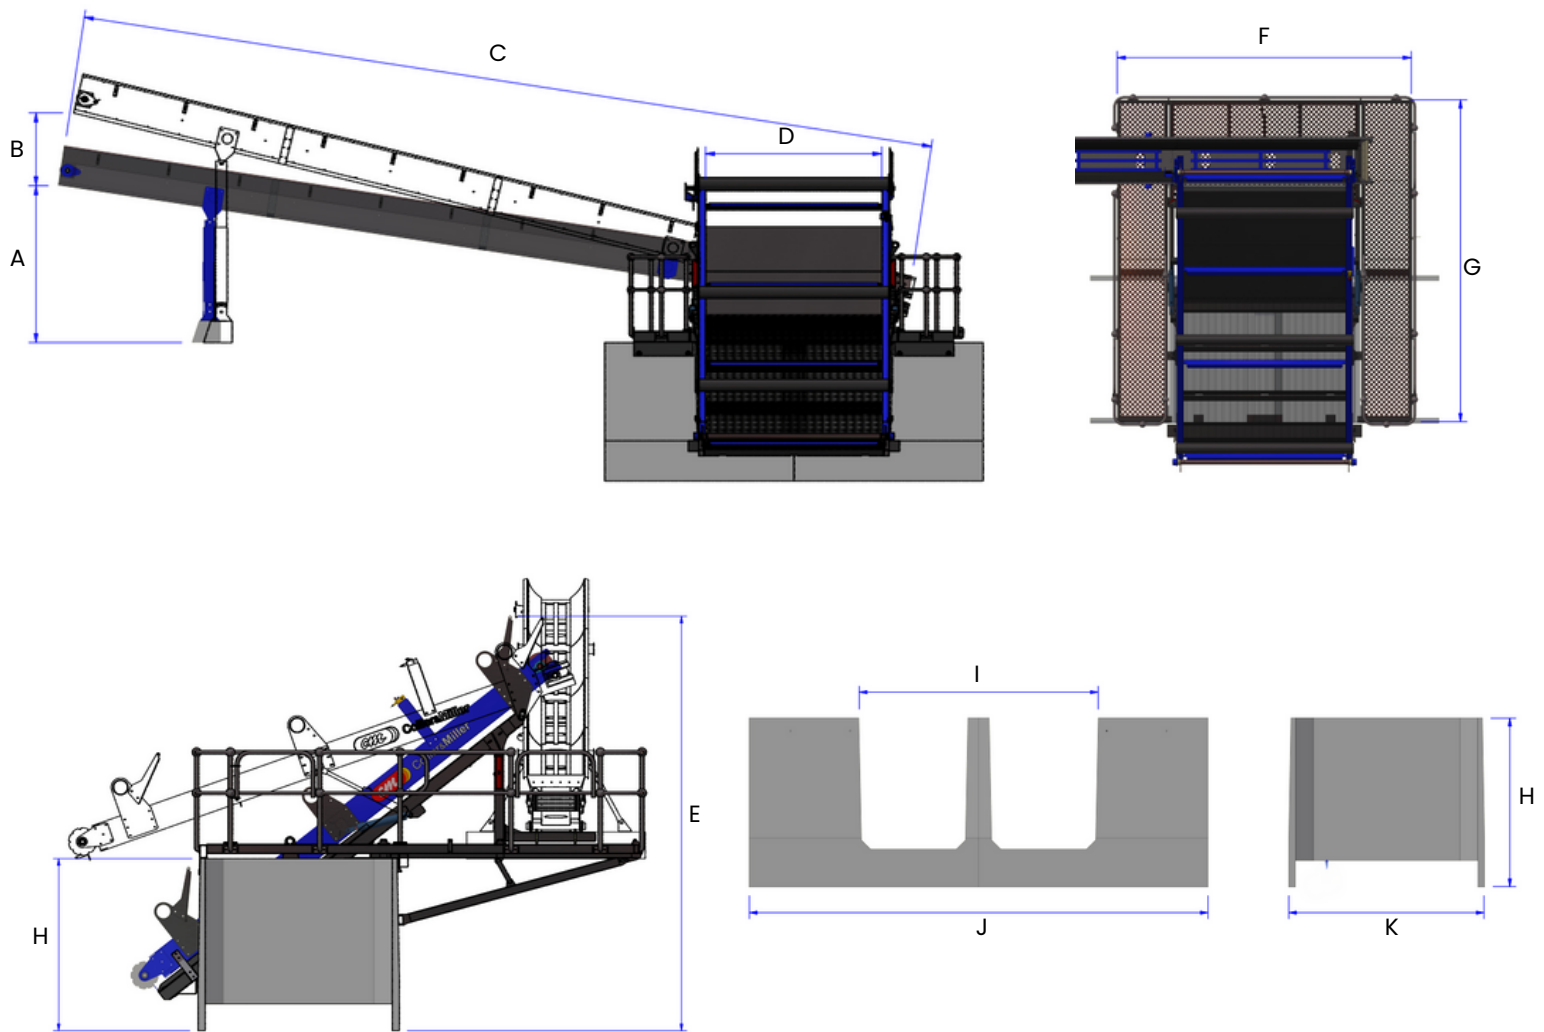

FEATURES & BENEFITS

- Filters debris, including flyaway grass, roly poly, cotton trash and wheat stubble
- Heavy-duty grate and rotating rack system
- Discharge conveyor
- Hydraulic power pack
- Robust engineering and heavy-duty design
- Custom design and additions available

All C&M machinery is Australian made and designed in Collier & Miller's state-of-the-art engineering workshop in Griffith, New South Wales. With more than 75 years' experience, Collier & Miller's engineering division is one of Australia's most experienced producers of quality, specialist agricultural machinery.

MODEL	CMTRE
DESCRIPTION	C&M Trash Rack Elevator
A = Conveyor Height (Minimum)	2188mm
B = Conveyor Height Adjustment	1016mm
C = Conveyor Length	12000mm
D = Elevator Width	2470mm
E = Elevator Height	4648mm
F = Platform Width	4480mm
G = Platform Length	4922mm
H = Weir Height	1930mm
I = Weir Opening	2760mm
J = Weir Width	5300mm
K = Weir Length	2255mm
