# Lockable Diesel Refuelling Storage & Dispensing Kits

The new Alemlube lockable diesel refuelling storage & dispensing kits have been designed adopting the very latest diesel fuel tank design cues resulting in a practical, user friendly shape that is easy to handle and versatile in its application.

Consisting of a heavy duty, robustly constructed, locally produced polyethylene tank with built in nozzle holster and a dispensing kit containing a 12V patented Italian manufactured pump, 4 metre long antistatic fuel delivery hose, 2 metre long battery cables and auto shut off nozzle, the kits are available in four sizes, 100 litre tank capacity, 200 litre, 450 litre and 600 litre capacities.

There are two models per size, one with an auto shut off nozzle dispensing kit and another with a digital flow meter nozzle dispensing kit.

The unique design of this new range allows the hose and nozzle to be fully usable even when the lid is closed and locked. In addition to increasing security of dispensing kit components, this feature also reduces foreign particles and the elements from contaminating the pump housing compartment when in use.

Ideal for carrying in the back of a ute or in a service vehicle, the lockable diesel refuelling storage & dispensing kits are easily transported from one location to another and provide a convenient on demand system for diesel refuelling and diesel fuel transfer wherever the need arises. For extra convenience the metered models assist in the accuracy and the amount of diesel fuel dispensed and all kits are fully assembled, operational and ready to put to work.

- Lockable and secure
- Heavy duty polyethylene tank
- Built in nozzle holster
- Unique user friendly design
- Dispensing kit components security
- 12V Italian made pump
- Antistatic fuel delivery hose
- 2 metre battery cables
- Auto shut off nozzle - 51037
- Auto shut off nozzle with built in digital meter - 51037M
- Forklift lifting points
- Tie down capability
- Tank baffles aid vehicle stability
- Suits all single and twin cab utes
- Dispensing rates of up to 50 L/min

Applies to Australian made tanks

Applies to Piusi pump kits

PRODUCT No.	CAPACITY	FLOW RATE	W/METER	DIMENSIONS IN MM
L10040PA	100L	50 L/min	—	690 x 720 x 570
L10040PAM	100L	50 L/min	YES	690 x 720 x 570
