

We use a
Schumacher pulse crop lifter

Mounting
easy and quick

MADE IN GERMANY

Mike Johnson,
in Canada, grows
1,000 + acres of various
types of edible beans.

In comparison to other lifters, the PRO FLEX lifter is much stronger and experienced longer wear along with less breakage on the finger. The simple adjustment, combined with the easy removal and mounting, reduces any unnecessary downtime. The white color of the PRO FLEX finger was much easier to see in the crop.

Schumacher pulse crop lifters combine simple design with durability for your easy pulse crop harvest:

- ... compact design and easy mounting
- ... guarantees tight fit on all types of guards (long slot)
- ... length and angle of lifter finger is fully adjustable to allow for optimal working conditions
- ... white color of lifter finger provides maximum visibility in all crop conditions
- ... high quality material ensures extended durability of the lifter finger

The clever
Schumacher pulse crop lifter

ONE4ALL

Schumacher pulse crop lifter: universal fit, easy & effective

With the specially designed slot, the PRO FLEX lifter can fit perfectly on most types of guards. That's why the SCH pulse lifter guarantees a tight fit.

PRO FLEX lifter will fit Schumacher guards as well as most forged guards.

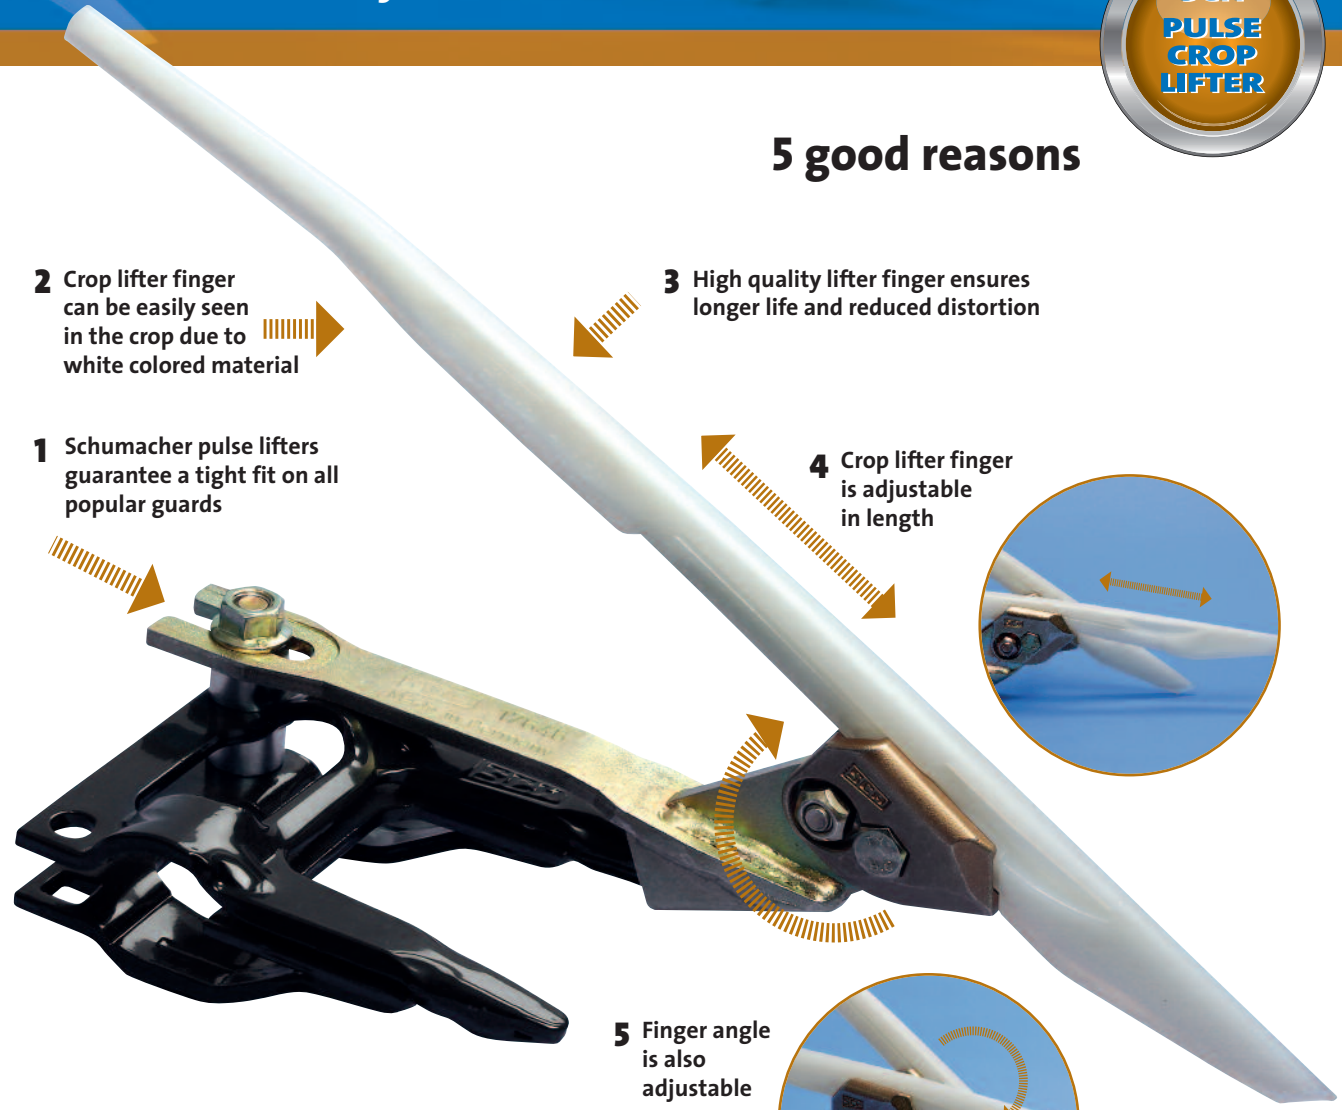

5 good reasons

2 Crop lifter finger can be easily seen in the crop due to white colored material

3 High quality lifter finger ensures longer life and reduced distortion

1 Schumacher pulse lifters guarantee a tight fit on all popular guards

4 Crop lifter finger is adjustable in length

5 Finger angle is also adjustable
