

TECHNICAL DATA SHEET

PYRAMINE – Germicidal Concentrate & Bio Security Barrier Protection

An efficient, food-safe disinfectant concentrate with a broad spectrum of use for post-cleaning sanitisation. Especially recommended in areas where positive bacteria control is essential.

FEATURES:

- Highly efficient formula
- Broad-spectrum
- Economical
- Safe to use
- Adaptable

BENEFITS:

- Provides hospital-level protection to all treated areas
- Effective on wide range of bacteria, moulds, fungi, protozoa, viruses and spores
- Concentrated, dilution of between 1-4ml per litre of water
- Odourless, non-flammable, low toxicity, non-irritating, non-staining and non-corrosive. Safe on all surfaces
- Can be used in industrial spray equipment for fogging, swimming algacide, disinfectant rinse for blankets and general laundry

APPLICATIONS:

- Bio security protection and post cleaning sanitation
- Industrial and Agricultural foot and vehicle baths
- Poultry sheds
- Farming equipment
- Food outlets and food preparation areas
- Hospitals and Clinics
- Vets, kennels, stables
- Algae and fungus affected areas

DIRECTIONS:

- General post cleaning disinfection/sanitising- 1-2ml per litre of water
- Food surface disinfection/sanitising – 2-4ml per litre of water
- Disinfection/sanitising of kennels and stables – 2-4ml per litre of water
- Areas may be swabbed, mopped or sprayed according to circumstances. Can be sprayed and left, no need to wipe away
- Disinfectant foot or vehicle baths- 4ml per litre of water (recommended changed out twice weekly)
- Mix in with water in foot or vehicle bath

SAFETY INFORMATION:

- Keep out of reach of children
- Avoid contact with skin and eyes
- Harmful if swallowed
- Read Material Safety Data Sheet before use
