ETCH PRIMER

Anchor Industrial Etch Primer is a single pack epoxy rich etch primer. It has exceptional adhesion and fast drying. It can be applied to mild steel, aluminium, zincalume, galvanised iron, fibreglass, chrome, copper, brass, stainless steel and other metal alloys. Can be used as a convention primer at a normal film build or high adhesion primer as a mist coat. Can be over coated with most paint systems.

Available in 400g aerosol, 1L, 4L, 20L

Colours: Grey and Black

ANCHOR

STRUCTURAL PRIMER

Anchor Industrial Structural Primer is a high build, fast drying, easy sanding zinc phosphate enamel primer. It's a cost efficient anti corrosive coating providing a smooth rust resistant base coat that improves adhesion and appearance of the top coat. Suitable for use on mild steel in general industrial & engineering applications, steel structures as well as farm & agricultural projects. Can be over coated with most single pack enamel top coats.

Available in 400g aerosol, 1L, 4L, 20L

Colours: Grey and Red

ANCHOR

ZINC COATINGS

Anchor Industrial Zinc Protection are a range of fast drying, high solids, high performance, 100% epoxy rich zinc coatings

Anchor Industrial Cold Gal is designed to provide exceptional protection to steel surfaces in corrosive environments

Anchor Industrial Silver gal is designed to provide a silver sacrificial protection coating containing 48% zinc dust in dry film.

Anchor Industrial Black Gal is designed to provide a quick dry primer/ topcoat with great adhesion and anti-corrosive properties.

Available in 400g aerosol 1L, 4L and 20L
