Our 561060 incorporates the highest quality materials, providing the wearer the ultimate in comfort and protection for when a heavy-duty boot is a necessity. The industry-leading Vibram XS Work outsole is heat, oil & acid resistant, and the SRC slip resistance ensures excellent grip & traction in the most testing of underfoot conditions. A YKK zipper allows for easy on/off, and is protected by a full-length leather ZipGuard. Safety and comfort features include: a 200J steel toe cap, moulded PU scuff cap to promote longevity, silicone AbrasionGuard to protect critical seams and provide impact protection, AirZone Comfort System coupled with a premium polyurethane cushion midsole for unparalleled comfort & reduced fatigue, OrthoTec PU footbed w/ anatomical arch support, Dri-Freeze® lining that provides maximum moisture management and breathability, Nomex stitching, and a padded tongue and collar. Made in Australia. Certified to AS 2210.3:2019 and ISO 20345:2011.
