

ANU236

6.5dBi GROUND INDEPENDENT UHF ANTENNA WITH REMOVABLE WHIP

Theres an Oricom for Everyone.

Introducing the ANU236, a robust 6.5dBi ground-independent UHF CB antenna featuring an elevated feed and heavy-duty barrel spring base for enhanced durability. The antenna allows for a variety of mounting options for bullbars. A specific bracket will be required depending on the mounting option chosen (bracket not supplied). The ANU236 is finished in a black powder coating.

KEY FEATURES

- Length of antenna is 960mm
- Low-loss coaxial cable included (4.5m)
