## Product Information Document

### Overview

Customer Facing Name:	M12™ Cordless Copper Pipe Cutter (Tool Only)
Material Number:	C12PC-0

### Product Overview

The industry's first cordless lithium-ion copper tubing cutter cuts up to 10X faster than conventional cutters. Engineered with plumbers, mechanical contractors and builders in mind, this versatile copper pipe cutter runs at 500 RPM. The ultra-efficient gearing allow you to make up to 200 cuts on a single charge. The patent-pending cutting mechanism automatically adjusts diameter to cut copper pipes (OD from ½" to 1-1/8"). The unique rotating cutting head cuts installed copper piping with as little as 37mm clearance, and the lightweight, inline design provides a longer reach and reduces wrist strain when you're working in confined spaces. A built-in LED light illuminates the cutting surface. The metal cutting head is corrosion and rust resistant, and sealed for water protection, while electronic overload protection and unibody construction provide additional durability. An onboard, real-time battery fuel gauge helps you monitor the charge precisely, so there's less downtime on the job. **NOTE, Product not suitable for New Zealand Standard 3501 sized copper**
