

NEW PRODUCT RELEASE

CRL274 Series Halotrack™ Illuminated Tail Combination Lamp

Features:

- Halotrack™ Technology
- Modern Design
- ADR Compliant
- Easy Mount

Description:

The CRL274 Halotrack™ series is a new range of rear LED combination lights with a modern sleek design. Purposely built for utes, trucks, RV or caravan rear signal applications. Our Halotrack™ technology provides a diffused consistent tail light function for increased illumination across the surface area for higher visibility. Built for durability the CRL274 series features polycarbonate lenses and has an IP67 rating. Perfectly sized and aesthetically pleasing, these lights will enhance virtually any application.
