# 18V 330mm (13") Jobsite Fan

**LXT**

DCF301

# Product Statement

## 18V 330mm (13") Jobsite Fan

The 18V LXT 330mm Job Site Fan (DCF301) is a portable and powerful cordless solution. Get up to 13.5 hours of portable air flow on a single charge of an 18V LXT Lithium-Ion 6.0 Ah Battery (sold separately). This fan is ideal for improved air circulation in close quarters, increased air flow for painters, and more.

Three speed settings and an oscillation selector allow the user select optimal air velocity and control. It delivers 240m/min of air flow on High. For added convenience, the fan operates on 18V LXT Batteries or AC Power (cord included). It also has a handle for easy transport and can be mounted onto a tripod.

# Product Overview

# Product Specification Sheet

Fan diameter	330mm (13")
Max. wind velocity	240m/min
Max. air volume	21m <sup>3</sup> /min
Overall length	277mm
Skin weight	3.8kg
Weight (with battery)	4.5kg (BL1860B)
Voltage	18V / AC

- **Power** – features a 240m/min maximum air speed with 3 wind speed settings High / Medium / Low
- **Quiet Operation** – fan noise has been significantly reduced due to the re-design of the fan blades and cover. Now only 52dB which would be equal to that of a running refrigerator
- **Off-timer switch** – push button switch allows the user to select timer settings of either one, two or four hours after which the fan will turn off
- **3-speed settings** – high, medium and low wind speed settings are available for additional control depending on the drying or cooling application. The settings are visible via the LED indicator and will resume operation at the speed set in last operation
- **Adjustable fan angle** – adjustable fan angle allows for greater versatility and increased airflow dispersion mode in varying working environments
- **Adjustable oscillation** – Automatic oscillating fan increases airflow dispersion for increased air movement in varying working environments
- **Powered by 18V LXT Batteries or AC Power** – compatible with 18V LXT batteries users will receive up to 13.5 hours of runtime with a 6.0Ah battery in high, or powered by 240V AC power

# Advantages

## Power

240m/min maximum air speed with up to 13.5 hrs runtime on a 6.0Ah battery in high with oscillation

## Convenience

Powered by either 18V LXT batteries or AC power

## Versatility

Automatic Oscillation: 45° left/right allows for greater and more versatile air dispersion

## Control

3 Speed settings are available for more control depending on the application
