Part No.	Drill Bit Capacity	Point Angle	Voltage
DDXP	2.5mm - 13mm (3/32" To 1/2")	118°	240V 1PH

SHARPENING BITS WITH DRILL DOCTOR IS AS EASY AS 1 2 3

1. Insert Drill Bit
Insert the drill bit into the chuck jaws & tighten the chuck just to the point where the bit can only just slide in and out.

2. Align Drill Bit
While holding the alignment button down, insert the chuck and slide the drill bit forward until it touches the drill stop. Tighten the chuck firmly.

3. Sharpen!
Insert the chuck into the sharpening port and rotate one half turn in a clockwise direction repeatedly until the drill bit is sharp.
