

Makita

Portable Bluetooth Speaker

DMR203

CXT **LXT**

Product Objectives

- Develop a premium Bluetooth speaker that produces high quality audio and is powered by Makita's 12V Max, 18V batteries or AC Power.
- To develop a Bluetooth speaker with group chain, allowing up to 10 speakers to wirelessly connect and simultaneously play the same audio, for ultimate wireless sound.

Product Overview

Multi-speaker connection

2 Way Speaker System

Colour LCD panel

Dust & shower proof construction

Bluetooth connectivity

Equalizer

USB Charging Port

AUX-IN Jack

Product Specification Sheet

Continuous runtime	Bluetooth: 6.0Ah - 32hrs AUX In: 6.0Ah - 35hrs
Practical max. output	12Vmax: 3.5W, 14.4V: 6W, 18V: 10W, AC: 3.5W
Bluetooth range	Max. 30m, Optimum 10m
Overall length	217mm
Skin weight	2.7
Weight (with battery)	3.4kg
Voltage	12V/18V

- **Multi-speaker connection** – True Wireless Stereo technology allows you to connect up to 10 speakers and play the same sound simultaneously, providing ultimate wireless sound.
- **Colour LCD panel** – displays the status of speaker, equalizer settings, as well as song titles and artist names.
- **Bluetooth Connectivity** – allows you to wirelessly play music from your mobile device with a maximum range of 30m.
- **USB charging port** – mobile devices can also be charged via USB connection and stored in an integrated storage slot.
- **2-way mono speaker system** – high quality sound from 2-way mono speaker system with a 101mm woofer and 36mm tweeter.
- **Dust and shower proof construction** – IP65 rated for use in outdoor applications, increasing protection against dust and moisture.
- **Equalizer** – user can choose from 7 selectable sound modes to suit different genres of music. Treble, midrange and bass can also be individually customized for desired sound.
- **Powered by Makita Li-Ion or AC power** – compatible with 12V MAX or 18V Makita batteries, the DMR203 can also be powered by 240V AC Power.
- **AUX-IN jack** – can be used as a stereo speaker by connecting an external audio source via 3.5mm AUX cable.

Advantages

Powerful Sound

Two-way stereo speaker system with a 101mm subwoofer for powerful rich sound

Technology

TWS enables up to 10 speakers to connect to a mobile device, playing simultaneously

Durability

IP65 Rated for use in outdoor environments

Compatibility

Power by 12V Max, 18V batteries or AC

Advantages

Group Chain – Multi-speaker connectivity

The DMR203 features the NEW Group Chain feature, allowing the user to wirelessly pair up to 10 speakers to provide deep, rich and powerful sound. This feature makes it ideal for larger venues and sites, allowing multiple speakers to play the same sound simultaneously from a Bluetooth connected mobile device. When connected in group chain all speakers play in mono (single channel)

Advantages

True Wireless Stereo (TWS) – Stereo sound connectivity

The DMR203 also features the NEW True Wireless Stereo feature, similar to the group chain feature users also have the option to pair 2 speakers in stereo mode. When 2 of the speakers are paired in stereo one speaker acts as the left channel and one as the right channel creating the impression of sound heard from various directions

Advantages

Dust and shower proof construction

The IP rating or ingress protection rating is an international standard that classifies the degrees of protection a product can withstand from solid objects like dust and water. The first digit indicates protection against solids and the second digit against liquids.

The DMR203 is credited with an IP65 rating, meaning protection from total dust ingress as well as protection against water jets from any angle.

IP65

Accessories

Standard Accessories

	SE00000503	AC Adapter
