

**Makita**

# 18V Brushless Hedge Trimmers

**LXT**

# Product Overview

## DUH602 – 18V Brushless Hedge Trimmer 600mm

3 stage speed change

Low noise

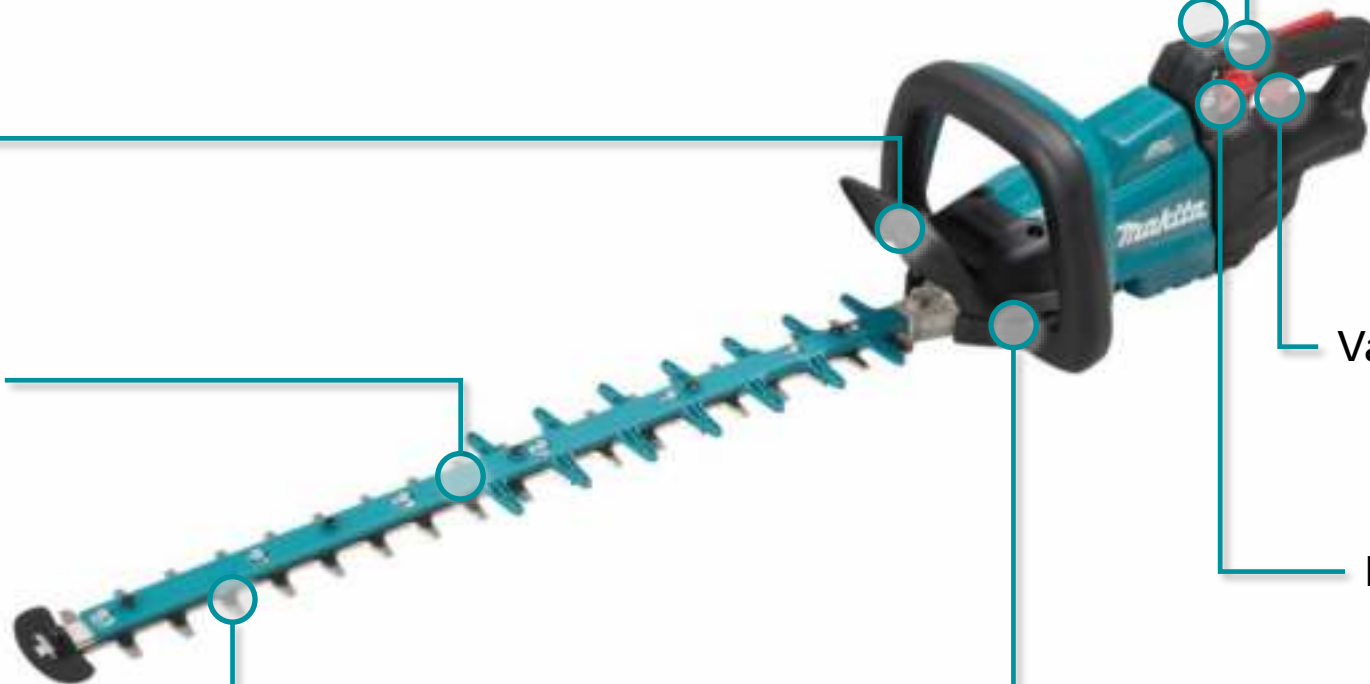

Electric blade brake

Blade release function

Variable speed trigger

Rotating rear handle

Lightweight design

# Product Specification Sheet

## DUH602 – 18V Brushless Hedge Trimmer 600mm

Max. branch diameter	21.5mm
Blade length	600mm
Noise	90dB
No load speed	Hi: 0 - 4,400spm Med: 0 - 3,600spm Low: 0 - 2,000spm
Overall length	1,121mm
Skin weight	3.9kg
Weight (with battery)	4.5kg
Voltage	18V

- **3 Stage speed change** – control panel allows adjustable stroke speed according to operations and the environment
- **Low noise** – noise rating of 90dB
- **Electric blade brake** – quickly brings the blades to a smooth stop so the user can safely resume operation
- **Blade release function** – if the blade was to become jammed the user can press the release button temporarily reversing the blade direction
- **Variable speed trigger** – as well as the 3 stage speed change the user can have full control of the blade speed from the variable speed trigger, similar to a petrol trimmer
- **Rotating rear handle** – handle can be positioned in 5 positions, 0°, 45° and 90° left and right for maximum comfort in various applications
- **Lightweight design** – at only 4.5kg with a 6.0Ah battery compared with the equivalent petrol model at 5.0kg

# Product Overview

## DUH752 – 18V Brushless Hedge Trimmer 750mm

3 stage speed change

Electric blade brake

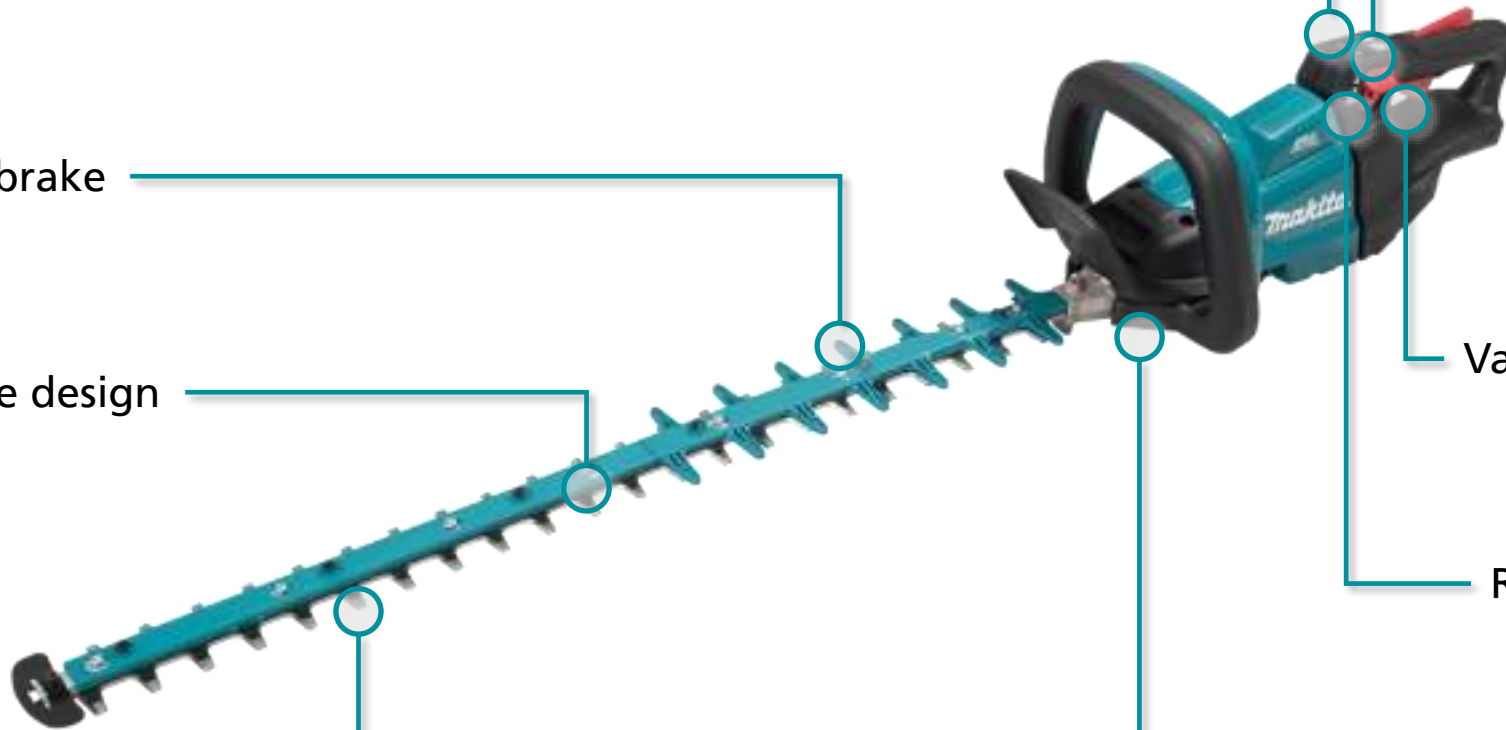

Standard blade design

Blade release function

Variable speed trigger

Rotating rear handle

Lightweight design

**XPT**  
EXTREME PROTECTION TECHNOLOGY

# Product Specification Sheet

Max. branch diameter	21.5mm
Blade length	750mm
Noise	93dB
No load speed	Hi: 0 - 4,400spm Med: 0 - 3,600spm Low: 0 - 2,000spm
Overall length	1,261mm
Skin weight	3.9kg
Weight (with battery)	4.5kg
Voltage	18V

- **3 Stage speed change** – control panel allows adjustable stroke speed according to operations and the environment
- **Standard blade design** – features a double reciprocating blade with a flat blade surface
- **Electric blade brake** – quickly brings the blades to a smooth stop so the user can safely resume operation
- **Blade release function** – if the blade was to become jammed the user can press the release button temporarily reversing the blade direction
- **Variable speed trigger** – as well as the 3-stage speed change the user can have full control of the blade speed from the variable speed trigger, similar to a petrol trimmer
- **Rotating rear handle** – handle can be positioned in 5 positions, 0° , 45° and 90° left and right for maximum comfort in various applications
- **Lightweight design** – at only 4.5kg with a battery compared with the equivalent petrol model at 5.0kg

# Product Overview

## DUH751 – 18V Brushless Hedge Trimmer 750mm

3 stage speed change

Low noise

Electric blade brake

**XPT**  
EXTREME PROTECTION TECHNOLOGY

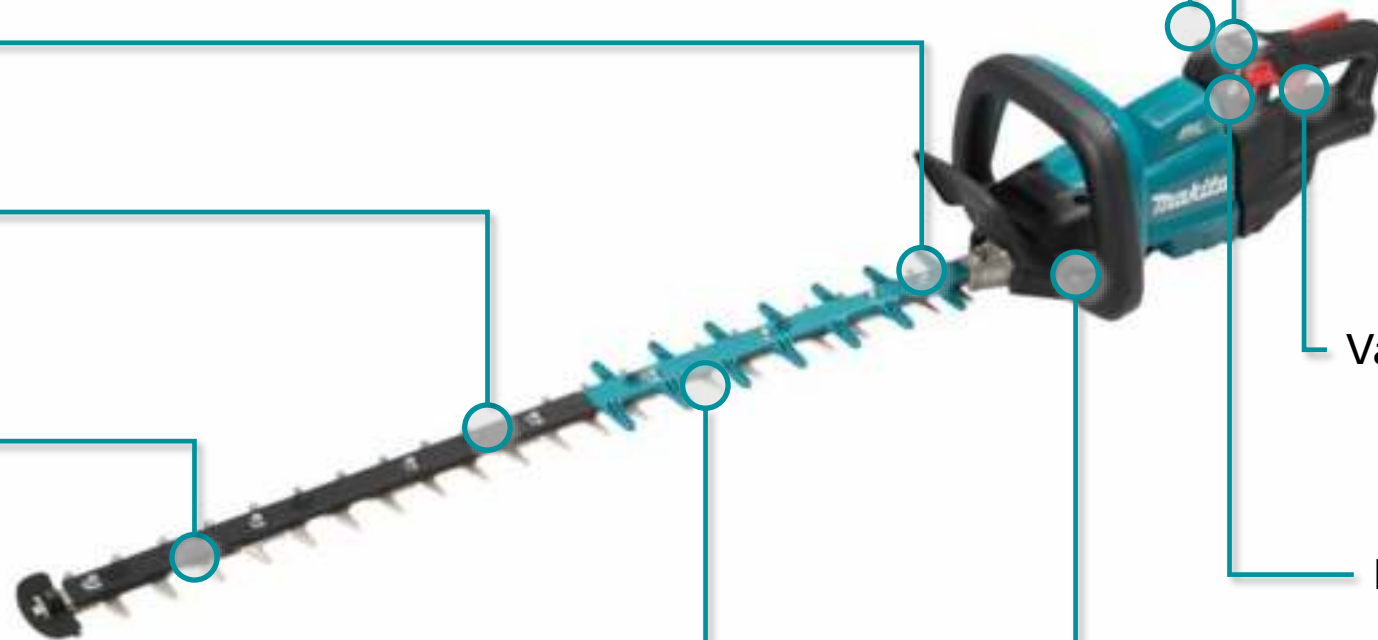

Improved blade design

Blade release function

Variable speed trigger

Rotating rear handle

Lightweight design

# Product Specification Sheet

## DUH751 – 18V Brushless Hedge Trimmer 750mm

Max. branch diameter	23.5mm
Blade length	750mm
Noise	93dB
No load speed	Hi: 0 - 4,400spm Med: 0 - 3,600spm Low: 0 - 2,000spm
Overall length	1,261mm
Skin weight	3.9kg
Weight (with battery)	4.5kg
Voltage	18V

- **3 Stage speed change** – control panel allows adjustable stroke speed according to operations and the environment
- **Low noise** – noise rating of 93dB
- **Electric blade brake** – quickly brings the blades to a smooth stop so the user can safely resume operation
- **Improved blade design** – new shape blade, designed specifically for cordless trimmers reduces resistance and increases runtime
- **Blade release function** – if the blade was to become jammed the user can press the release button temporarily reversing the blade direction
- **Variable speed trigger** – as well as the 3 stage speed change the user can have full control of the blade speed from the variable speed trigger, similar to a petrol trimmer
- **Rotating rear handle** – handle can be positioned in 5 positions, 0° , 45° and 90° left and right for maximum comfort in various applications
- **Lightweight design** – at only 4.5kg with a 6.0Ah battery compared with the equivalent petrol model at 5.0kg

# Advantages

## Performance

18V Brushless Motor provides up to 4,400spm

## Innovation

Anti-vibration structure reduces vibration for comfortable prolonged use

## Convenience

Rotating rear handle for maximum comfort in a variety of applications

## Comfort

24% lighter in weight than the petrol equivalent

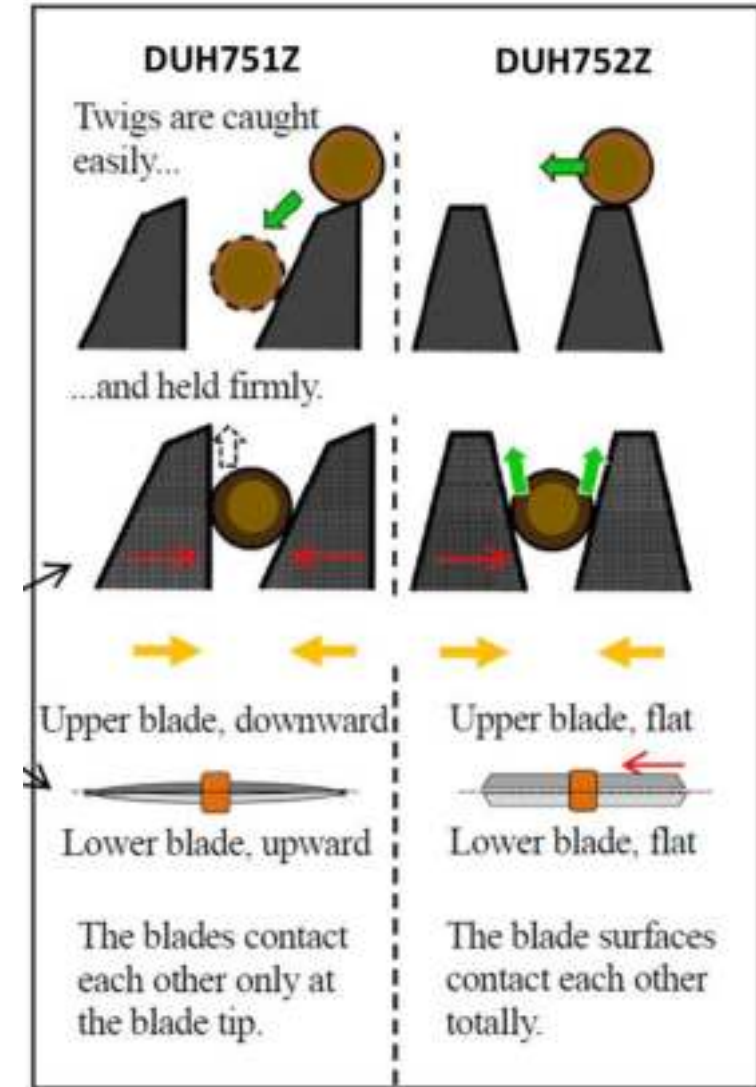

## Change in Blade Design

**DUH751** – Featured the double reciprocating curved blade which produced less friction resulting in cleaner and efficient cutting with more cuts per charge.

**DUH752** – Features the double reciprocating blade however the blade surfaces are flat meaning more friction will be created during the cutting process.

## Difference in Runtime

	DUH751	DUH752
High	45mins	40mins
Medium	70mins	60mins
Low	160mins	150mins
