Overview

Customer Facing Name:	M18 FUEL™ Blower (Tool Only)
Material Number:	M18FBLG30

Product Overview

The M18 FUEL™ Blower is designed to meet the needs of the landscape maintenance professional for quick, routine cleanups. The M18 FUEL™ Blower delivers a maximum air volume of 14.2 m³/min (500 CFM), with a maximum air speed of 193 KPH, providing users high constant power levels and reaching full throttle in under one second. The blower also offers a low noise level of 90 dB(A), allowing users to work comfortably and comply with blower noise regulations. The lightweight, balanced design and ambidextrous variable speed sliding lock on switch provides the user with both control and the power to clear debris from 4.5 metres. Also included are both a tapered and a flat nozzle attachment, providing the ability to optimise airflow for different applications after connection to the blower tube.
