M706 -Pin Punches -Sutton Tools

Sutton Tools Pin Punches are used as a driving tool, typically, as the name implies, to drive pins that are used to affix a fixture to a rotating shaft. All Sutton Tools punches are made from high quality chrome vanadium steel with a hardened and tempered point to withstand continuous use. An ergonomic soft rubber grip provides comfort and safety.

Features:

- Soft grip handle for additional comfort and safety
- Molded knurling provides positive finger grip.
- Colour Coded for easy selection
- Made from high quality chrome vanadium steel
- Manganese Phosphate coating for highest hardness and superior corrosion and wear resistance
