

## FEATURES

- Simple plug and play fitment solution
- Fully compatible with all Roadvision Driving Light and Light Bar wiring harnesses
- Removes the need for any tampering with factory vehicle wiring
- Valuable accessory for any Driving Light or Light Bar wiring installation

**3YR**

3 YEAR WARRANTY

Roadvision's vehicle specific high beam patch harnesses allow for easy plug and play integration into non-standard factory headlight systems. Our plug and play high beam patch harnesses mean no more back probing, soldering, crimping or cutting factory wires. Simply locate the vehicle harness at the rear of one of the vehicle headlight assemblies and install the patch harness. Fully compatible with all Roadvision Driving Light and Light Bar wiring harnesses plus a useful accessory for any Driving Light or Light Bar wiring installation.
