WIA

NEW
ENHANCED
FORMULA

AUSTFIL[®] EXCEL

BETTER THAN EVER!

**More User-Friendly.
Expanded Mechanical Properties.**

HIGHER QUALITY

- **Multiple shielding gases**
Suits a wide range of amperages and voltages.
Optimised for argon/CO₂ mixes and 100% CO₂.
- **Fast-freezing slag**
Excellent weld pool control for consistent out-of-position welds.
- **Smooth, stable, spray-like arc**
Creates a flat bead profile, so it's easy to make great welds.

GREATER VERSATILITY

- **Suits a wider range of jobs**
So you can simplify your wire inventory.

BETTER PRODUCTIVITY

- **Easy-to-remove slag**
Simplifies interpass and post-weld clean-up and reduces rework caused by slag inclusions.
- **Low spatter levels**
Less clean-up time means more welding time.

EXPANDED MECHANICAL PROPERTIES

- **CVN impact properties have been improved to >80J Avg @ -30°C**

WELD WITH THE BEST.
