

# ANU900 UHF CB ANTENNA

## FITTING INSTRUCTIONS

### Pack includes

- Heavy duty custom spring base
- 1.07m Fiberglass pole (full antenna height, with base: 1.21m)
- Includes grub screw and hex key to secure the fiberglass pole

**IMPORTANT** - Always fit in accordance with State Road & Traffic Safety Guidelines

### Installation

1. Remove the shroud protecting the cable at the base of the antenna.
2. Install the spring base onto the bracket (not supplied). Tighten in a clockwise direction using a hexagon wrench or spanner. **IMPORTANT:** Do not exceed 50N.

3. Remove the cap from the top of the spring base and install the fiberglass extension pole on to the base by turning in a clockwise direction and secure in place with the grub screw (using the hex key provided). Hand tighten only MAX. 15N.
