- Manufactured to the Australian Standard AS/NZS 2906.
- NATA Accredited.
- Bio fuel compatible.
- Spare parts readily available.

FIREBUG DRIP TORCHES

FIREBUG DRIP TORCHES

For more than 50 years Rodney Industries have been supplying the Australian market with the iconic "FireBug" Fire Control Drip Torch.

We understand the importance of safety, quality and reliability when dealing with fire control processes; that is why our FireBugs are manufactured to the Australian standard AS\NZS 2906.

Our FireBugs have also undergone vigorous and destructive testing by Nata accredited test

engineers to ensure safety and durability. A copy of the test certificate is available by contacting our office.

Do not risk the safety of yourself, and those around you with a cheaper, sub standard fire lighter.

Our FireBug Drip Torches are used nationwide by Fire Brigades and Rural Fire Services for their fire control needs.

Disclaimer:

Back burning equipment should be used by trained, experienced personnel only. Precautions should be taken to prevent danger to yourself and others. A means of escape should always be located before setting fires where rapid spread may prove hazardous to yourself or others. All petroleum products should be handled with the same precautions as when working with fuel. Keep torch in good working condition, make sure all connections are tight, inspect on a regular basis and replace any damaged parts with original replacement parts only.

FIREBUG DRIP TORCHES

4 LITRE FIREBUG

Description	Code
Firebug FCT1 4 Litre Unit	14505

SPARE PARTS

Wand Repair Kit

Part	Description	Code
1	Wick bracket and bolt	
1	Nozzle	14495
1	Ignition wick
