

Cast Iron Turbine Pumps JP Series

DIY Friendly

Retail Box

The JP Series are tough and reliable horizontal cast iron self-priming jet pumps. Suitable for the average-sized home, they are capable of lifting water from underground tanks, shallow wells or direct from above ground rainwater tanks, making them the perfect household pressure pumps - reliable and efficient. The JP Series are available as bare pumps or retail-packaged with an automatic pressure controller for easy installation.

Features

- Run Dry Protection (pressure controller).
- Automatic pressure controller (stop & start on demand).
- Self-priming.
- Quick connect plug & play connection for pressure controller.
- Efficient power consumption.
- Electrophoretic coated to protect against corrosion.

Applications

- Pressure boosting.
- Water transfer.
- Pumping from underground tanks.
- Household water supply and irrigation.
- Rainwater tank pump set.

Tap Guide

JP81PC 4 x 
JP101PC 5 x 

*Taps have been calculated at 10L/min @ 140kpa.

Performance Table

Model	Item Number	Power		Max Flow Lpm	Max Head (M)	Max Suction (M)	Inlet / Outlet
		kW	V				
JP81	08381020016	0.6	240	50	42	9	1" x 1"
JP101	08381020015	0.75	240	60	45	9	1" X 1"
